

Community Call

September 4/5 2019

Video link <https://zoom.us/s/655391807>

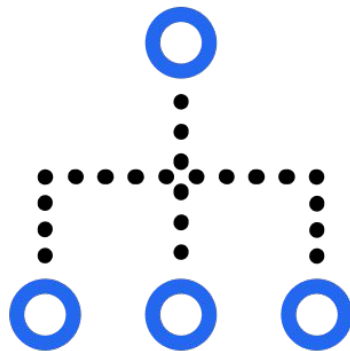

AGENDA

- Ben: Execution engines and Semantic Analysis intro
- Nokome: Generating structured HTML with Encoda
- Jacqueline: Thema themes, Stencila /open

Execution Engines

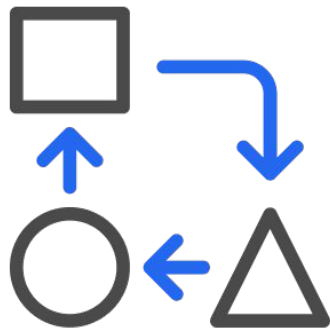

Simple method of executing a document, in Javascript, Python or R

- Javascript:
 - `stencila execute document.json --param1=5 --param2=10`
- Python
 - `python3 -m stencila.schema execute document.json --param1=5 --param2=10`
- R
 - `stencila::execute("document.Rmd", param1 = 5, param2 = 10)`

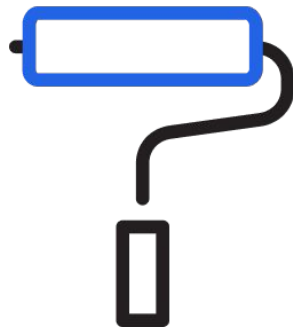

SCHEMA

github.com/stencila/schema

ENCODA

github.com/stencila/encoda

THEMA

stencila.github.io/thema
